All things about live coding

README

All things live coding awesome

A curated list of live coding languages and tools

This list was created with the intention of giving a quick-glance over the many possibilities to engage in this practice. For further information, head over to [TOPLAP](https://github.com/toplap/awesome-livecoding).

Languages

(In Alphabetical Order)

- [afterglow](#) - A live-coding lighting controller, building on the Open Lighting Architecture with Clojure and bits of Overtone.

Windows | macOS | GNU/Linux | lisp | FLOSS | audio

- [Alda](#) - A music programming language for musicians.

Windows | macOS | GNU/Linux | FLOSS | audio

- [Atomix](#) - A re-implementation and re-invigoration of ixi lang. (inactive)

Windows | macOS | GNU/Linux | JavaScript | FLOSS | SuperCollider | audio

- [Bacalao](#) - A live-coding library for SuperCollider inspired by Tidalcycles syntax.

Windows | macOS | GNU/Linux | SuperCollider | audio

- [Cane](#) - A small MIDI sequencer DSL designed around vectors and euclidean rhythms.

Windows | macOS | GNU/Linux | FLOSS | audio | MIDI | Jack

- [Chuck](#) - Strongly-timed, Concurrent, and On-the-fly Music Programming Language.

Windows | macOS | GNU/Linux | FLOSS | audio

- [clive](#) - Live-coding audio in C.

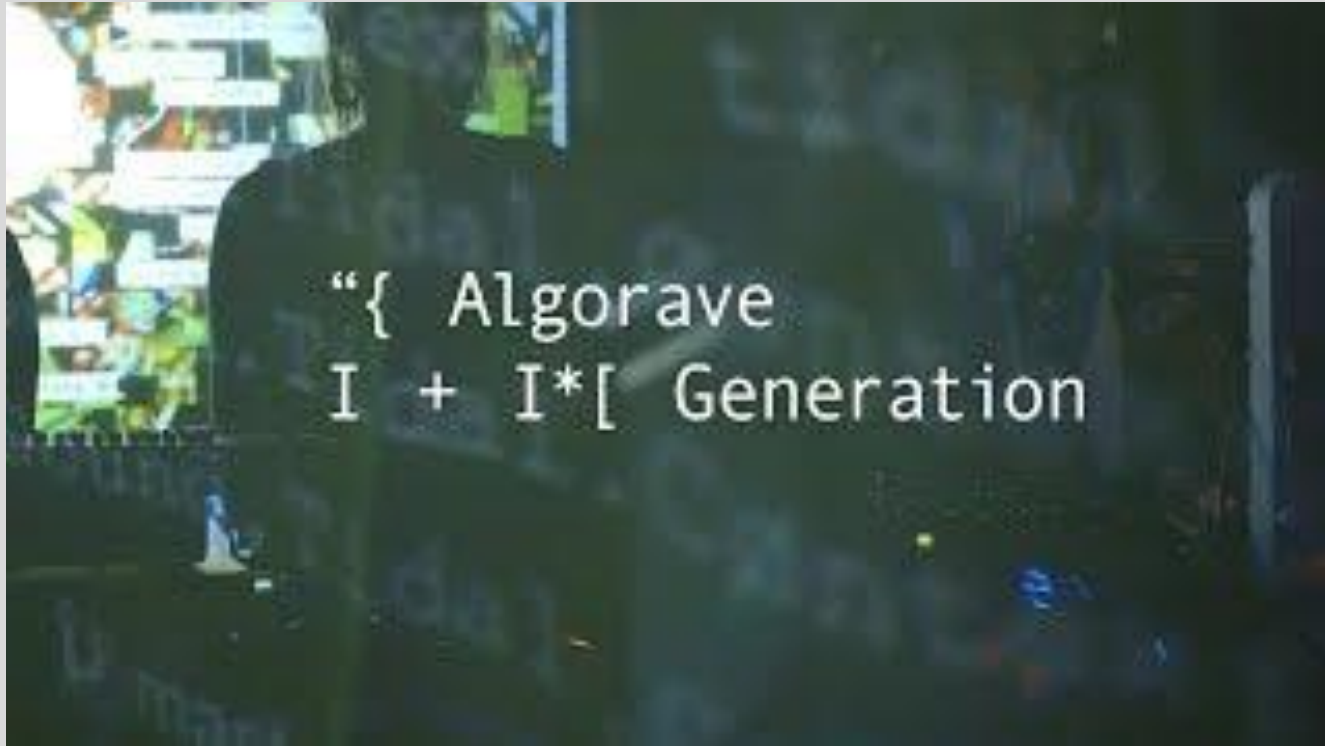

GNU/Linux | C | FLOSS | audio

- [Conductive](#) - A set of Haskell libraries for livecoding and real-time music applications. (inactive)

Windows | macOS | GNU/Linux | haskell | SuperCollider | FLOSS | audio

TidalCycles

Free/open-source software

Tidal Cycles (or 'Tidal' for short) is a free/open source live coding environment for algorithmic patterns, written in Haskell. Tidal is using SuperCollider, another open-source software, for synthesis and I/O.

tidalcycles.org

【Live Coding】Tidal x VScode 環境設定

SuperCollider回報錯誤訊息，怎麼辦？這時候可以在SuperCollider輸入以下指令後執行：

Welcome

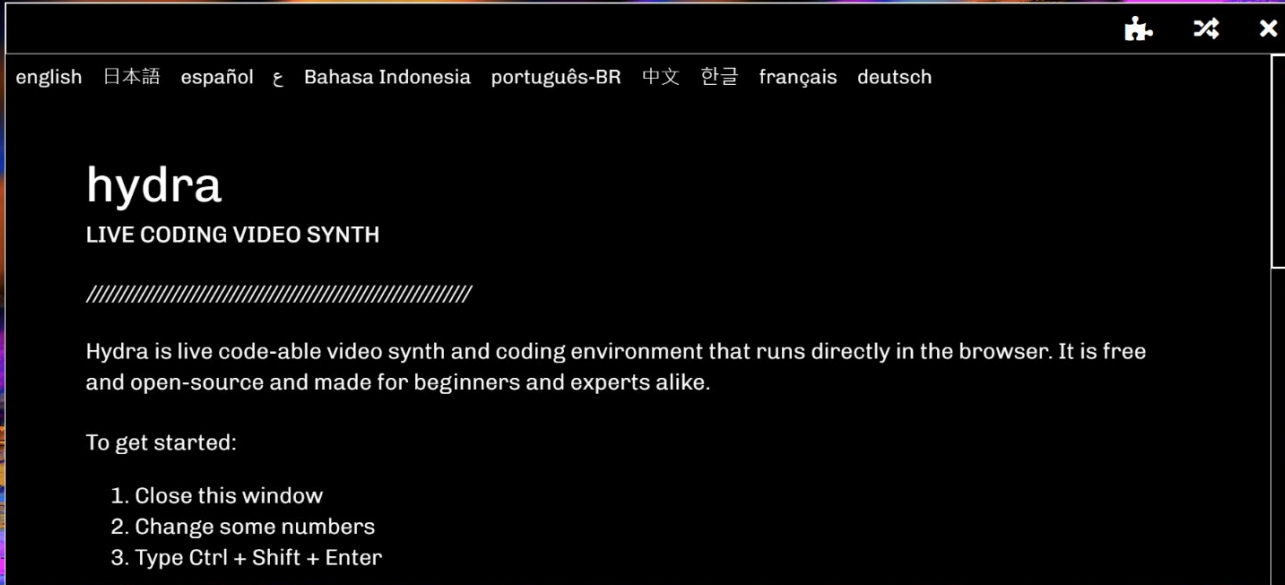

Welcome to the Strudel documentation pages! You've come to the right place if you want to learn how to make music with code.

What is Strudel?

With Strudel, you can expressively write dynamic music pieces. It is an official port of the [Tidal Cycles](#) pattern language to JavaScript. You don't need to know JavaScript or Tidal Cycles to make music with Strudel. This interactive tutorial will guide you through the basics of Strudel. The best place to actually make music with Strudel is the [Strudel REPL](#)

SonicPi

Sonic Pi

*Experience the **sound of code**.*

Sonic Pi is your free code-based music creation and performance tool.

Powerful for professional musicians and DJs.

Expressive for composition and performance.

Accessible for blind and partially sighted people.

Simple for computing and music lessons.

Learn to code creatively by composing or performing **music** in an incredible range of styles from **Classical** & **Jazz** to **Hip hop** & **EDM**.

Free for everyone with a friendly **tutorial**.

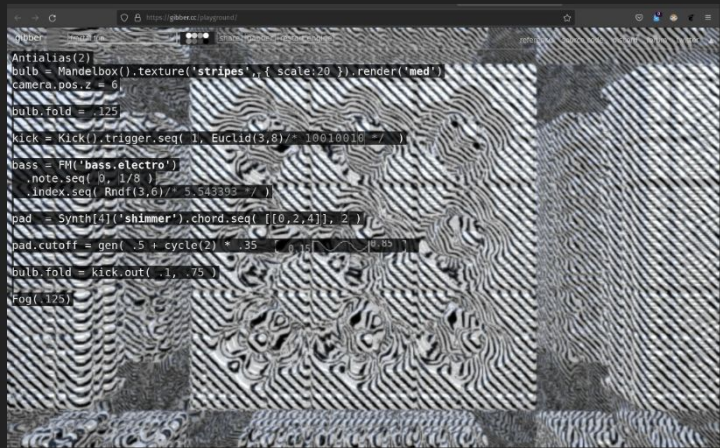

*Brought to you by **Sam Aaron** and the Sonic Pi Core Team.*

Gibber

Gibber

home [resources](#) [playground](#) [discord](#)

Gibber is a live coding environment for audiovisual performance. There are lots of amazing live coding systems out there, a few things that make Gibber different include:

- Novel annotations and visualizations within the code editing environment.
- Unified semantics for sequencing audio and visuals.
- Support for coding with external audiovisual libraries, such as p5.js and hydra.
- Support for networked ensemble performances.

Orca

```

4 1 x 1 5      8 / 8      1 9 6 f      1 2 0 *      | - - - - -
3 9 , 1 3      1 : 1      e m p t y      _ m i d i      I A C D r i v e
```

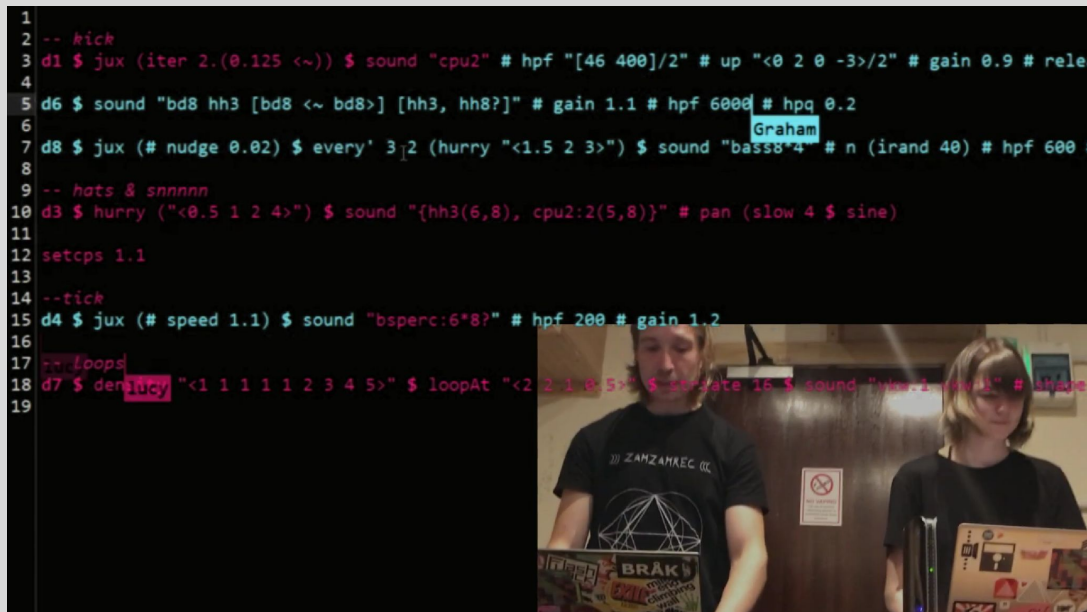

Orca is a two-dimensional esoteric programming language in which every letter of the alphabet is an operator, where lowercase letters operate on bang, uppercase letters operate each frame.

The application is not a synthesiser, but a flexible livecoding environment capable of sending MIDI, OSC & UDP to your audio interface, like Ableton, Renoise, VCV Rack or SuperCollider.

Get started making music

In these lessons, you'll learn the basics of music making. No prior experience or equipment is required; you'll do everything right here in your browser.

To get started, check out the boxes below. Each one contains a small piece of music. Click a box to turn it on or off.

MUSIC WITH DICE

COPYRIGHT, © 2013 BY CAROUSEL-MUSIC.COM

ISBN 978-0-935474-34-x

Musikalisches Würfelspiel

Below is a musical dice game attributed to Mozart (K⁶ 516f). Click on measure numbers in the following grid to construct a score. To play the game, roll two dice at a time to select a specific row in each column of the grid based on the sum of the two dice. Do this sixteen times to generate a randomized score. If you are lazy, type the letter "r" to generate a realization, or "?" to list other commands.
